

Rusty Trim

Software Engineer

* * *

Computer Science graduate with hands-on experience in IT support and full-stack development. Skilled in troubleshooting systems, building real-time applications using WebSockets and Node.js, and working with Linux environments. Contributed to system recovery efforts following a university cyber incident and developed scalable backend systems for real-time communication.

EMPLOYMENT HISTORY

IT Help Desk Tech (information Technology Help Desk Technician)

Lake Superior State University, Sault Ste. Marie — Sep 2025 – Present

- Assisted in restoring university computer systems following a campus-wide cyber incident
- Reimaged and reconfigured affected machines to ensure secure and functional operation
- Provided technical support to users impacted by system outages and recovery efforts
- Diagnosed and resolved hardware, software, and basic network issues for students and staff
- Applied structured troubleshooting to identify root causes rather than relying on temporary fixes
- Communicated technical issues and solutions clearly to non-technical users
- Assisted with installation, configuration, and maintenance of computer systems and applications
- Provided step-by-step guidance to users to resolve issues and improve technical understanding
- Maintained professionalism and composure when assisting frustrated or confused users
- Documented issues and solutions to improve future troubleshooting efficiency
- Utilized logical and analytical thinking to break down complex technical problems
- Supported operating system environments and common productivity software

Restaurant Crew Member

McDonald's, Perry, MI (US) — May 2025 – Aug 2025

- Provided fast, accurate service in a high-volume, time-sensitive environment
- Handled customer orders, payments, and cash transactions with accuracy
- Maintained cleanliness and organization of workstations in compliance with health standards
- Collaborated with team members to ensure efficient workflow during peak hours
- Managed multiple tasks simultaneously while maintaining quality and speed
- Resolved customer concerns professionally to maintain a positive experience

SKILLS

Data Structures & Algorithms, Object-Oriented Programming, Concurrency & Multithreading, SDLC, HTML, CSS, Next.js, Express.js, WebSockets, Linux/Unix, Operating Systems, Shell Scripting, ScyllaDB, Relational Databases (RDBMS), Database Design, C++, Java, JavaScript, TypeScript, SQL, Bash

- Adapted quickly to changing demands and high-pressure situations
- Demonstrated reliability and punctuality in a shift-based work environment
- Learned and applied new tasks quickly across multiple roles (register, food prep, cleaning)

Full Stack Engineer

Strafe.chat, Remote — *Oct 2023 – 2024*

- Built a real-time chat application using WebSockets for low-latency, bidirectional communication
- Developed a backend with Node.js and Express.js to handle messaging, user sessions, and API endpoints
- Designed and integrated a scalable database solution using ScyllaDB for high-throughput message storage
- Implemented a responsive frontend using Next.js to deliver a dynamic user experience

EDUCATION

Bachelor of Computer Science

Lake Superior State University, Sault Ste. Marie — *Aug 2026 – May 2028*

Associate of Computer Science

Lake Superior State University, Sault Ste. Marie — *Aug 2024 – May 2026*

GPA: 3.73 | Magna Cum Laude | Dean's List
3rd Place - Programming Competition, Northern Michigan University
Morrice Area High School — *2017 – 2024*
